PREAMBLE

Greetings! We hope the past season brought you as much pleasure as it did us. While almost all glads are beautiful, we have done our best to weed out the inferior varieties and to present only the finest of the newer glads.

This year we are introducing a total of 13 new varieties. There are only two miniatures in this group but both are exceptional. We are particularly fond of Paper Doll, which, is in our estimation, one of the most beautiful decoratives of any size. Among our large and medium introductions there are probably more outstanding show prospects than we have ever offered before in a single year. Viscount, Mary Lou, and White Shoulders will all be contenders for Top Honors in the medium size division. Brown Bomber will undoubtedly rank as one of the best giants and it would be difficult to predict which one of our large introductions will be the biggest winner.

The prospect of our continuing ability to bring you top quality new varieties has been greatly increased by the addition of a new hybridizer. Dr. Robert Griesbach of Chicago has agreed to allow us to propagate his seedlings for introduction. The first two, Mary Lou and Dairy Queen, are being offered this year. The first group of seedlings from this source gives us much reason to think that Dr. Griesbach may well become recognized as America's greatest hybridizer. Included in the first group were a lacinated miniature brown, a 10 open pure white miniature, a deep ruffled yellow miniature with an orange red blotch, and the most beautiful heavily rufflled large yellow we have ever seen. And these are only a few!

Our cover this year pictures what we consider the finest exhibition miniature ever originated, Larus' 55-35-B. If you can visualize Parfait with a clean bright red color, you will have some idea of what to expect. We don't hesitate a second to predict that this little red will far surpass the record of Parfait.

Our 1961 introductions performed up to expectations, with three, Damascus, Quo Vadis, and Dark Victory receiving very high ratings in the show grower's symposium. Band Wagon, our 1960 introduction was rated among the top ten exhibition varieties by this same group. No less than 6 of our miniature introductions were included among the 10 Best miniature recent introductions.

The best crop we've ever had will enable us to be more liberal than ever in filling your orders. In addition to the usual overcount and extras, if you will help us with the postage, you will receive 2 to 3 times the amount included in bulbs of 1962 introductions of our choice.

Where bulbs are priced per each, 10 bulbs may be had for the price of 8.

INTRODUCTION

BROWN BOMBER *(Summerville) 596* *85 Days*

Giant milk chocolate brown that gives promise of being as consistent a winner as was the champion for whom it was named. Produces plants of great vigor with 8-10 of its 25-28 buds open at once in formal placement on a flowerhead of 30″-36″. The huge 6½″ florets have small red marks in the throat and a light hairline edge, are lightly ruffled, and are wide open. A spike shown by Bob Sprinkle at Springfield, Illinois received the highest score ever given a seedling by Hi Durland, one of America's foremost judges. That particular spike had a 38″ head, 28 buds, and 10 open. Has won half a dozen or more seedling championships in four different states. Produces quantities of bulblets that germinate easily.

L – $2.00 M – $1.50 S – $1.00 Bblts – 10/$2.00

SPINNAKER *(Summerville) 401* *85 Days*

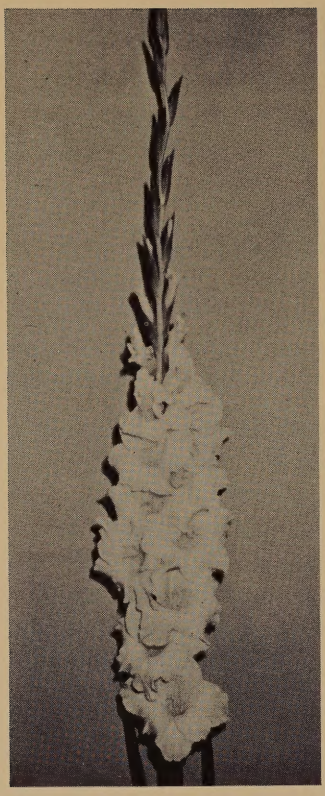
This seedling of Pauline by White Sails definitely favors its father—in fact to simply say that it is a larger, huskier, White Sails would be a pretty accurate description. Heavily ruffled white with a pale rose feather in the throat. Opens 8-10 formally placed blooms with a total of 24 buds. Flowerheads from large bulbs will average 32″-34″. The 5½″ florets are wide open and, unlike White Sails, never open above unopened buds. Produces very small bulblets but they germinate well.

Any size – $2.00 Bblts 10/$2.50

SKYLINE *(Summerville) 400* *85 Days*

Another outstanding show prospect from the same cross that produced Spinnaker. Skyline is an extremely vigorous grower with spikes that are just under 6′ tall. The 30″-34″ flowerheads open 9 of 26 buds in regular formal placement. The ruffled florets are very clean white with a greenish cream throat. Health and propagation are excellent. Skyline like Spinnaker will provide the top show glads with stiff competition.

Any size – $2.00 Bblts – 10/$2.50



White Shoulders

WHITE SHOULDERS *(Eppig) 300* ***75 Days***

This is a pure, clean white with a greenish throat and white stamens. Grows 5′ tall with a wiry stem that will not crook in hottest weather. She sets 23-25 buds with 9-11 open in perfect placement on a 30″ head. Will make 20 buds and 8 open even from a #4. The florets are lightly ruffled and waved and measure 4-4½″ which makes it a large 300 and a potential "killer" in this division. It has been shown only three times as a seedling:

1960 Best Seedling, Springfield, Mass.
1961 Grand Champion, Long Island Early.
1961 Grand Champion, New Jersey Early.

The bulbs are clean and healthy and make lots of small bulblets which germinate well. Its earliness and ability to make good spikes from small bulbs should make it a good cut flower. There are very few large bulbs in existence due to accidental loss of 80% of the stock in 1960.

Any size — $3.00 1 Bulb, 10 bulblets — $6.00

DAIRY QUEEN *(Griesbach '62) 410* ***95 Days***

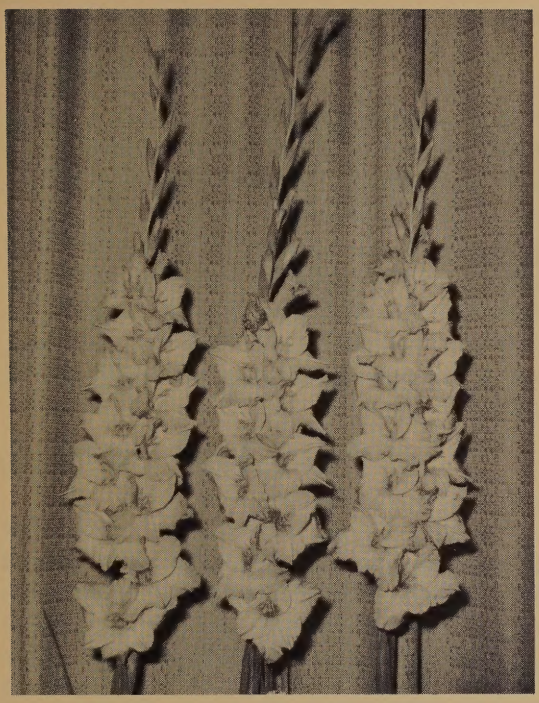
A statuesque beauty in very light cream or ivory. Even the most critical of judges will take notice when confronted with Dairy Queen's combination of beauty and proportion. Spikes stand 5′ tall or more with heads of 30″-36″, 21-24 buds and 7 open in the field. Moderately ruffled with wide open, well attached florets. Well rated in the 1960 NAGC Trials where Dave Morey, well known eastern showman, rated it "A" overall and scored it 90 for color value. A top exhibition prospect and one that no commercial grower can afford to overlook.

Any size (your choice) $1.00 Bblts — 10/$1.00

MARY LOU *(Griesbach) 341* ***75 Days***

A spectacular glad that can be depended upon to put life in your gladiolus patch, home, or on the show table. The moderately ruffled 4¼″ florets are white with a pink flush and are strikingly set off by a large crimson blotch. Flowerheads are 25″-27″ with 21 or more buds and 8 open. One of the most consistent glads in existence with almost every spike of exhibition quality. Even bulblets frequently produce good spikes. Very healthy and prolific. Mary Lou, named after the hybidizer's wife, was the highest rated seedling in the 1961 Michigan trials.

L — $1.00 M — $.75 S — $.50 Bblts — 10/$1.00
2L, 3M, 5Sm, 10 Bblts — $5.00



Baker's Dozen

BAKER'S DOZEN *(Larus) 442*

85 Days

In the hands of the real showman, Baker's Dozen will produce some of the most precise and impressive spikes ever shown. The 5¼″ florets are a clean medium pink with a light yellow throat; they are ruffled and open flat—up to 13 at a time in perfect formal placement. The vigorous foliage shoots a flowerhead of 20-24 buds to a length of 30″ to 36″. Total plant height is 57″-65″. In our many years of growing glads, no other variety has had the ability to produce such outstanding show spikes. Health and propagation are excellent.

L – $2.00 M – $1.50 S – $1.00
Bblts – 10/$2.00
1L, 1M, 1S, 10B – $5.00

REX *(Larus) 466*

90 Days

Few glads possess the clean, rich color found in Rex. The ruffled and fluted 5″ florets are a deep rose purple, with a blending but deeper purple throat, and of heavy substance. Seven to ten open at a time in formal placement on long heads with all of the 18-21 buds well spaced, even at the tip. The 55″-60″ spikes are a rare combination of beautiful, well formed flowers and spikes that are impressive to the man with a tape measure. A fine potential for exhibition as well as cut flower use.

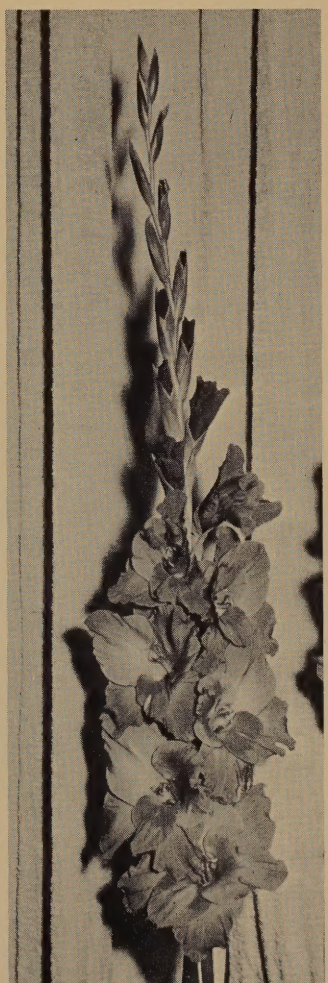
L – $2.00 M – $1.50 S – $1.00 Bblts – 10/$2.00
1L, 1M, 1S, 10B – $5.00

AZTEC *(Larus) 414*

60 Days

Aztec is a large and vigorous 400 size glad. The 4½″-4¾″ florets are a distinctive and beautiful medium buff yellow, slightly deeper in the throat. They are moderately ruffled, wide open and very tightly attached to the 27″-32″ flowerheads. Of the 17-20 buds 5-7 will open at a time on plants reaching a total height of 55″-60″. Earlier than practically any named variety and an easy cutter. Health and propagation are excellent.

L–$1.00 M–$.75 S–$.50 Bblts–10/$1.00



Rex

PAWPAW ***(Larus) 416*** ***85 Days***

After having been tested by ten experienced gladiolus growers under varying conditions, Pawpaw has demonstrated on the show table and in the garden that it has the attributes necessary for a commercial. Its record includes Best Seedling at Connecticut in 1958, American Home Achievement Award at Norco in 1960 and Approval by the Hybridizers' Guild Trial Gardens in 1961. Opens 6-7 4¾″ florets which are heavily ruffled and of good substance. They are a beautiful deep yellow with a few inconspicuous light red pencil lines at the back of the throat petal. Plants are 55″ to 60″ tall, with 19-21 buds on 25″ flowerheads. A vigorous healthy grower with ample stem for easy cutting. Strong propagation.

L or M — $1.00 5 Bulbs, 25 Bblts —$5.00

VISCOUNT ***(Larus) 310*** ***80 Days***

The regular growth habits and precise spikes of Viscount have caused it to be called, on occasion, a 300 Parfait. The attractive 4″ florets are ruffled and are a light buff cream self, with 8-10 open in perfect formal placement. Spikes grow 55″ tall with 20-23 buds on a 26″ flowerhead. This is a really good glad that is a reliable producer of outstandingly well balanced exhibition spikes. Does not seem to have a real fault.

Any size — $1.50 Bblts — 10/$1.50

Flip

FLIP *(Larus) 235* *78 Days*

Some of the first Larus miniatures such as Parfait, Domino and Camelot were of the formal type and have become leading exhibition winners, more recently their miniature seedlings have emphasized a combination of beauty and good growth habits. Flip is a strikingly pretty deep salmon with a greenish yellow throat. Six lightly ruffled florets of 18-21 buds open at a time. The spikes are tall and the flowerheads 23″-26″ long. Growth is consistent and the graceful miniature type spikes should make a real hit for both decorative and exhibition uses.

Any size — $1.50 Bblts — 10/$1.50

PAPER DOLL *(Larus) 210* *70 Days*

Here is one of the prettiest arrangement miniatures to be found. The pale cream florets have a deeper cream throat and are beautifully ruffled at the outside and knuckled toward the center. Plants grow 45″-55″ tall with 16-20 buds on wiry, graceful, flowerheads of 21″-25″. The 5 open 3½″ florets are of medium heavy substance and informally placed. Its potential as a decorative is indicated by its winning as champion miniature basket at two 1961 shows, New Jersey and the Eastern International where it was also Grand Champion Basket.

Any size (your choice) $1.00 Bblts — 10/$1.50

HIT PARADE *(Lins '57) 364* ***70 Days***

What a cut flower this would be if the florets were a bit larger! Where it can be cut on the break it is excellent, but unfortunately loses too much size to be cut tight. Opens 8 nicely ruffled florets on a 28″ head with plenty of buds. The color is a clean deep lavender with a lighter throat. Easy grower.

L – 10/$1.50 M – 10/$1.00 S – 10/$.60

INNOCENCE *(Fischer '57) 460* ***70 Days***

When grown fairly well, this is absolutely tops as a cut flower–oh, it has its faults, slight weakness of stem and an occasional crook. Florists can't get enough Innocence and will pay a premium to get it. Makes tall plants with long cutting stems. Opens 8 lightly ruffled 4½″ florets. Color is a frosty light rose.

L – 10/$1.25 M – 10/$.75

INSPIRATION *(Roberts '60) 361* ***90 Days***

L – $3.00 M – $2.50 S – $2.00 Bblts – 10/$2.50

IRISH ROSE *(Butt '59) 434* ***85 Days***

An unusual combination of orange salmon with a clean green throat. Makes massive exhibition type spikes with 32″ heads and 9 huge florets open at once. We doubt its commercial importance as the cutting stem is not long enough, but it's a real "sleeper" for the exhibitor.

L – 10/$2.00

LAST ROSE *(Pazderski '61) 458* *98 Days*

The best way to describe this is to say that it is a 400 size Negus with light ruffling and an improved deep rose-red color. Produces champion type spikes with no special attention. Opens up to 13 in formal placement on a 27 bud, 35″ head. One of the finest show prospects in years.

L – $2.50 M – $2.00 S – $1.50 Bblts – 10/$2.00

MARJORIE NADEAN *(Blanden '58) 542* *80 Days*

We have tried in vain to produce the perfect exhibition spikes claimed for this variety—said to grow 5′ tall with 36″ heads and 10-12 of 24 buds open at once in ruffled pink. For us it has been rather short, flecked, and unimpressive to say the least.

L – $1.25 M – $.75 S – $.50

NEW SNOW *(Jack '58) 400* *80 Days*

A top 1958 introduction – similar to Snowdrift but with better placement, wider open florets, and lacking the pink blush. Opens 8-10 of 24 buds on a 30″ head. Ruffled and heavy textured white with just a trace of cream in the throat.

ROSA *(Flad '57) 454* *75 Days*

Rosa is a sister seedling of the All-America variety Joyous. In many respects, it is definitely superior. The color is richer, florets are larger, and it is healthier. Opens up to 9 of its 23-25 buds on heads of 30″.

L – 10/$1.50 M – 10/$1.00 S – 10/$.75

ROSARY *(Butt '61) 534* *85 Days*

Although classed deep salmon, Rosary seemed medium rose to us. A fine self color. Florets have little or no ruffling but with 10 of its 24 or more buds open at once on long heads of 30″-32″ it makes quite a pretentious show spike. In this class Rosary will come up against Salmon Queen; we feel it will give a good account of itself.

L – $2.00 M – $1.50 S – $1.00 Bblts 10/$1.50

SALMON CRINKLES *(Rohrback '58) 330* *75 Days*

SUGAR ELL *(Vennard '59) 434* *95 Days*

DARK VICTORY *(Summerville '61) 258* ***85 Days***

One of our finest miniatures. Recognized as one of the top miniature recent introductions in the show growers symposium. Opens up to 10 of 23 buds on wiry heads of 25″. The well tailored glowing red florets are lightly ruffled.

L – $.75 M – $.60 S – $.40 Bblts – 10/$.75

DIDO *(Baerman '59) 211* ***80 Days***

Nicely ruffled cream with a deeper cream throat. Opens 8-10 of 21 buds on a well balanced flowerhead. Dido and Canahri are about the only miniatures with good formal placement.

L – 10/$2.00 M – 10/$1.25 S – 10/$.75

DOLLY DIMPLES *(Tyndall '60) 147* ***75 Days***

A most unusual and striking little flower. Florets are composed of 3 regular shaped petals and 3 shorter ones. Color is light red with cream midribs. Vigorous and healthy.

L – $.75 M – $.50 S – $.25 Bblts – 10/$.50

DOMINO *(Larus '59) 211* ***65 Days***

Another top rated Larus miniature that has won Grand Championships over the large varieties. Opens 7-9 of 19-25 buds on heads of 21″25″. Cream white with a small dotted lavender blotch on a cream throat. Ruffled, round and wide open.

L – $.40 M – $.30 S – $.20 Bblts – 15/$.50

DUSKY LAD *(Roberts '58) 291* ***70 Days***

An unusual shade of mahogany and mulberry overlaid with smoky lavender with a large yellow throat that is brushed with scarlet. Opens 6 or 7 on a thin stem that will sometimes crook.

L – $.30 M – $.20 S – 2/$.30

EDGELITE *(Butt '61) 211* ***75 Days***

Lightly ruffled cream with a light yellow throat and a red picotee edge. One of the prettiest little glads in our list. Opens 5-7 florets on a wiry spike of 15 buds. One of the few miniatures that are acceptable commercially as a cut flower.

L – $2.00 M – $1.50 S – $1.00 Bblts – 10/$1.50

ELITE *(Tyndall '59) 201* *75 Days*

One of the best new miniatures. Opens up to 10 formally placed florets on a 20 bud flowerhead. A miniature reproduction of Crusader. Florets are beautifully ruffled white with a light purple blotch.

L – $.40 M – $.30 S – $.20 Bblts – 15/$.50

FINESSE *(Pierce '60) 215* *60 Days*

We rated this the #1 introduction of 1960. We have had 9 open in perfect zig zag placement with a total of 23 buds—almost unbeatable. The color is equally exciting—clean light yellow with a large light red botch. Nicely ruffled.

L – $1.00 M – $.75 S – $.50

FLUTTERBY *(Larus '60) 241* *80 Days*

Similar to Parfait in many respects—particularly in the neatly ruffled butterfly type florets and growth habits. Buds are light salmon buff opening to light pink with a medium rose red blotch. Spikes 50″ to 60″ tall carry heads of 23″-27″ with 7 3½″ florets open.

L – $.50 M – $.40 S – $.30 Bblts – 10/$.50

FOXFIRE *(Roberts '61) 226* *80 Days*

One of the finest new glads we saw last summer. Opens 6 or 7 of 18 buds in zig zag placement on a head of 22″. The color is deep scarlet orange. Florets measure 3″. Promises to be a heavy winner at the shows—should be a strong contender for miniature champ.

L – $3.00 M – $2.50 S – $2.00 Bblts 10/$2.50

FRANCINE *(Fairchild '60) 250* *75 Days*

In color almost an exact miniature of the beautiful Francesca, but with a bit more rose in its makeup. Opens 6 ruffled florets with a total of 19 buds.

L – $.50 M – $.40 S – $.30

FRILLS *(Larus '59) 214* *65 Days*

Beautifully ruffled light yellow with deep yellow throat petals. Opens 7 heavily ruffled florets on a head of 18″-23″ and 21 buds. A good show glad and valuable as a first early cut flower. Takes a large bulb for top performance.

L – $.40 M – $.30 S – $.20 Bblts – 15/$.50

GOLDEN FILIGREE *(Baerman '61) 116* *Days*

Frankly we have yet to bloom this, having grown only bulblets. Per introductory description: pure deep yellow of heavy substance and beautifully lacinated edges. Opens 8 of 18 buds. Only a fair propagator and bulbs do not grow very large. Will be a winner on the show table.

S only – $1.50

GRACE NOTE *(Vawter '61) 100* ***90 Days***

Tiny cream white that will open 6 1½" florets with a total of 18 buds. Florets are waved and needlepoint. Makes lots of big bulblets that grow easily.

L – $2.00 M – $1.50 S – $1.00 Bblts – 10/$2.00

GREEN SHEEN *(Pierce '61) 204* ***85 Days***

Self colored chartreuse that grows quite tall with a straight 21 bud flowerhead that opens 6 at once. Florets are ruffled and of good form. Will probably come to be recognized as the best in its class.

L – $1.00 M – $1.00 S – $.50 Bblts – 10/$1.00

HARUM SCARUM *(Pierce '61) 297* ***85 Days***

Fairly deep chocolate brown with a peppered yellow throat. Should be a big ribbon winner in this weak color class. Opens 8 of 19 buds on a typical miniature spike.

L – $.75 M – $.50 S – $.25 Bblts – 10/$.75

HUMMING BIRD *(Roberts '61) 234* ***70 Days***

Heavy ruffling and winging almost make this one appear to be laciniated. Color is medium deep pink with a stippled throat giving an overall appearance of Salmon. Opens 4-5 of 12-14 buds on a head of 17". Pretty and unusual.

L – $2.50 M – $2.00 S – $1.50 Bblts – 10/$2.00

IKON *(Butt '61) 235* ***80 Days***

Deep salmon with a rose blotch–reminiscent of Peter Pan. Texture and rufflling are heavy. Opens 7-8 of 16-19 buds on well balanced heads. A fine variety for either showing or arranging.

L – $2.00 M – $1.50 S – $1.00 Bblts – 10/$1.50

IVORY FRILLS *(Laurie '61) 210* ***70 Days***

We grew only bulblets of this but they grew tall and bloomed 100% with most making large bulbs. The introducer states that from large bulbs 6-7 heavy texture florets open at once. Heads are 20"-25". A far better grower than Bread & Butter but not as pretty. Color is ivory with a large yellow throat.

L – $.75 M – $.60 S – $.50 Bblts – 10/$.75

LEILANI *(Kroon '60) 242* ***70 Days***

One of the most beautiful of the small glads. A lovely shade of cool rose with a white throat. Rather inconsistent in its habits, but all spikes are attractive and the good ones terrific. While not normally a good bulb maker our bulbs this year are quite nice.

L – 10/$2.00

LITTLE FAWN *(Vennard '60) 190* *80 Days*

A very smooth tan true miniature. Florets are about 2½" in diameter, and 7 or 8 will open at once on a head of good proportions. One of the few good 100 size glads. Blooms best from young bulbs.

L – $.75 M – $.50 S – $.35

LITTLE WONDER *(Tyndall '61) 200* *75 Days*

Far and away the best white miniature. By comparison Polar Club is course and unattractive. Opens up to 7 pure white ruffled florets of perfect form on a 21 bud, 22" flowerhead. Placement and attachment are about perfect. Grows well from bulblets but even planting stock seldom grows beyond number 3's.

L – $2.00 M – $1.50 S – $1.00 Bblts – 10/$2.00

LUNA *(Butt '61) 204* *80 Days*

We missed seeing Luna in bloom last summer—according to Butt it is chartreuse and as green as any in this class, grows tall with a long head and opens 6 of 16 buds. Florets are ruffled, waxy, wide open, and quite beautiful.

L – $2.00 M – $1.50 S – $1.00 Bblts – 10/$1.50

MISS KITTY *(Fairchild '60) 290* *75 Days*

Copper toned miniature unlike any other we've seen. Florets are well opened and look you right in the eye. Just enough ruffling to add an air of daintiness. Opens 6 of 17 buds on heads of 18"

L – $.50 M – $.40 S – $.30 Bblts – 15/$.50

NYMPH *(Butt '59) 220* *75 Days*

Another outstanding Butt miniature. Beautifully tapered little spikes carry 7 heavy textured and ruffled florets in ideal miniature placement with a total of 17 buds. The color is buff pink with a clean buff yellow throat.

L – 10/$2.00 M – 10/$1.50

ORANGE BRILLIANT *(Vawter '61) 126* *70 Days*

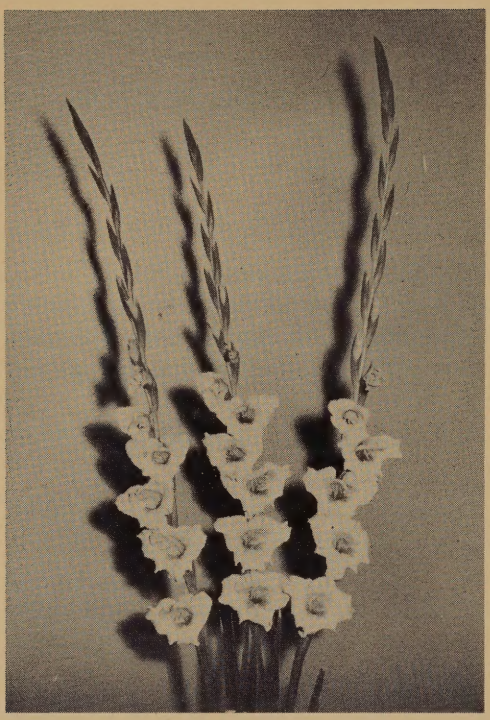
The only deep orange among the 100's. Opens 7-8 2¼" florets of a total of 18 buds. Deep orange with a deeper throat and a thin gold midline on the lower petals. Lightly waved. Makes large bulblets that grow easily to good sizes.

L – $1.25 M – $.75 S – $.50 Bblts – 10/$.75

ORBIT *(Butt '61) 235* *80 Days*

Salmon pink with a blending yellow throat—very similar to Ikon. Opens 8 deeply ruffled florets on a 20 bud show spike. Very heavy textured, well attached and well placed.

L – $2.00 M – $1.50 S – $1.00 Bblts – 10/$1.50



Panda

PANDA *(Larus '60) 201* *80 Days*

Lightly ruffled creamy white 3½″ florets have a small rose blotch on a light yellow throat. Spikes are uniformly tall, 50″-58″ with a 24″-27″ head and 19-22 buds of which 7 or more will open at once. A strong contender for miniature champ.

L – $.50 M – $.40 S – $.30
Bblts – 10/$.50

PARFAIT *(Larus '58) 231* *78 Days*

Rated far and away the #1 miniature exhibition variety, winning almost as many section champs as all other miniatures combined. Light salmon with a pale red blotch on a cream throat. Opens up to 10 in perfect placement on heads of 22″ to 26″ and 18-23 buds.

L – 10/$2.00 M – 10/$1.50
Bblts – 25/$.50

POLAR CUB *(Evans '53) 200* *85 Days*

An extremely vigorous grower. Makes wiry stems with heads of 22″ to 30″. Spikes from large bulbs will average about 23 buds with 10 open and 8 in color. Placement is quite formal normally, but there is apt to be space between the first two or three florets if it is overwatered.

L – 10/$2.00 M – 10/$1.00 S – 10/$.75

QUO VADIS *(Summerville '61) 201* *75 Days*

An extremely vigorous Ares seedling. Cream white with a very distinctive solid, round, rose red blotch. Florets are lightly ruffled, wide open, rather formally placed, and 3½″ in diameter. Makes flowerheads of 25″-28″ with 8 of 23-25 buds open at once. The show growers symposium placed this among the top 10 miniature recent introductions.

L – $.75 M – $.60 S – $.40 Bblts – 10/$.75

RED RIBBON *(Tyndall '60) 246* *80 Days*

A wonderful new miniature for all purposes. Ruffled light rosy red with a silver edging. With 10 of its 22 buds open it is bound to be a contender for championship rosettes. We prefer it to Zig Zag.

L – $.75 M – $.50 S – $.25 Bblts – 10/$.50

SAMBA *(Larus '61) 255* *78 Days*

One of the nicest little glads I've ever grown. Really outdid itself last summer. Florets are medium rose with a large, irregular white throat, which also strays to the upper petals. Opens 7-8 of 21-23 buds on heads up to 27″ long. A most unusual and beautiful miniature.

L – $.75 M – $.60 S – $.40 Bblts – 10/$.75

SAUCY *(Larus '60) 226* *80 Days*

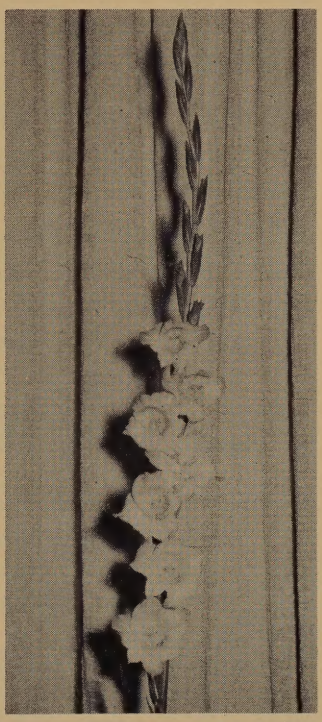
Winner of many seedling awards and already the leading blue ribbon winner in its class. The striking 3⅜″ florets are a bright salmon orange with a cream lip. Opens 6-7 of its 17-21 buds on heads of 21″-26″. Outstanding color will make Saucy valuable for decorative purposes.

L – $.50 M – $.40 S – $.30 Bblts – 10/$.50

SENORITA *(Larus '61) 242* *75 Days*

Clean medium pink with a large unmarked light yellow throat. Opens 7-8 of 19-23 buds on a long straight flowerhead. Its consistent production of near perfect show spikes puts it in a class with Parfait—and it is more beautiful. The 3″-3½″ florets are lightly ruffled.

L – $.75 M – $.60 S – $.40 Bblts – 10/$.75



Senorita

SILKY *(Fairchild '60) 220* *80 Days*

A soft blend of salmons and yellows giving the all-over effect of buff. Florets generally face up but not consistently. When they do the veined blotch goes all around the throat. Very useful as a decorative.

L – $.40 M – $.30 S – $.20

SPLISH SPLASH *(Pierce '61) 247* *85 Days*

Light red with a dusted yellow throat. Opens 5 or 6 of 17 buds on a straight spike. Blooms well even from bulblets.

L – $.75 M – $.50 S – $.35 Bblts – 10/$.50

SPRING MAID *(Summerville '61) 214* *58 Days*

The earliest blooming variety in the list and one of the very few miniatures that have real value as cut flowers. Opens 7-9 ruffled light yellow florets on a head of good length with 18-21 buds. Very healthy and a vigorous grower. An excellent show glad and a truly beautiful decorative.

L – $.75 M – $.60 S – $.40 Bblts – 10/$.75

STARFACE *(Vennard '60) 215* ***80 Days***

Thin wiry stems hold 6 or 7 of 15-18 buds open at once on heads of 22"-24". Salmon with a yellow throat from which red spears radiate. Florets are very small and quite interesting. Florists like it.

L – 10/$2.00 M – 10/$1.25 Bblts – 30/$.50

SUZETTE *(Larus '59) 243* ***80 Days***

Medium pink shading to a cream throat on which there is a pointed light red blotch. Florets ruffled and triangular in form. 4' to 5' spikes carry heads of 23"-26" with 17-19 buds and 6 to 9 open.

L – $.75 M – $.50 Bblts – 10/$.75

SUZIE *(Klein '61) 260* ***65 Days***

Heavily ruffled orchid lavender with a large yellow throat. Opens 7 of 21 buds on a long head. We suggest that you grow this from medium bulbs as it seems to grow too short in the handle and too long in the head from large bulbs. Approved by the Hybridizers guild.

L – $1.50 M – $1.00 S – $.60 Bblts – 10/$1.50

SWANKY *(Pierce '60) 231* ***85 Days***

Salmon pink with a big solid red blotch bordered yellow. Makes a good show spike of 19-21 buds with 7 open. A vigorous grower and a runaway propagator. Cuts well.

L – 10/$2.00 M – 10/$1.50 S – 10/$1.00

TINSEL *(Butt '60) 237* ***75 Days***

Blazing scarlet with an intense yellow throat. An eye-catcher of the first order! Makes 16 or more buds with 7-8 open. Ruffled and of heavy texture.

L – $.40 M – $.30 S – $.20 Bblts – 15/$.50

TOWHEAD *(Larus '60) 214* ***85 Days***

Towhead is a statuesque light yellow – lightly ruffled. A very clean color, quite formal, and beautifully tapered. Opens up to 9 of 23 buds on a 25" flowerhead. Rates well up among the top miniature show glads. Stock is still very small.

L – $.75 M – $.50 S – $.25 Bblts – 10/$.75

TOYTOWN *(Butt '54) 226* ***60 Days***

Heavily ruffled orange scarlet with a yellow throat. A very beautiful little glad.

L or M – 10/$1.50

UNIQUE *(Butt '61) 226* ***75 Days***

Deep orange salmon red with a deeper throat banded by yellow. A very striking color combination. Opens 7-8 of 17 buds. Heavy textured and very ruffled.

L – $2.00 M – $1.50 S – $1.00

UPPERCRUST *(Pierce '59) 256* *88 Days*

An unusually clean shade of deep rich rose—no markings. Opens 7 of 19 buds in good miniature type placement. This is an example of the fine color value we'd like to see more often.

L or M — $.40 Bblts — 10/$.75

WIDGET *(Larus '60) 205* *75 Days*

Rapidly rising toward the top of the green class in the miniature symposium ratings. Ruffled chartreuse with a medium pink picotee and a small light red blotch. 18″-20″ heads have a total of 17-19 buds with 7 open at once. Its color will make it sought after for arrangements but it is also capable of making excellent show spikes.

L — $.50 M — $.40 S — $.30 Bblts — 10/$.50

WING DING *(Summerville '60) 246* *75 Days*

Sister of Bingo and Dark Victory. The color is bright red edged in black red. Opens 9 of 19-23 buds on heads of 21″-25″. We like the color combination but not everyone will.

L — 10/$2.00 M — 10/$1.50 S — 10/$1.00 Bblts — 25/$.50

ZIG ZAG *(Pierce '54) 251* *85 Days*

Zig Zag makes long heads with 9 of 23 buds open. Color is light red with a peppered yellow throat. Has won several grand championships in competition with the larger varieties.

L — 10/$2.00 M — 10/$1.50
